### TO WHOM SO EVER IT MAY CONCERN

Today, I have visited CHINMAYA ENGLISH PRIMARY SCHOOL situated at Nagashettykoppa village, Hubballi Taluka, Dharwad District and inspected the Health and sanitary condition, drinking water facilities.

The school has got sufficient number of toilets for Boys and Girls and staff members separately and well maintained and cleaned regularly as and when used. School has full time sweeper for the cleaning and maintenance. The toilet has sufficient water; light and air ( exhaust fans). The surroundings of the school building are maintained clean.

The school has provided purified drinking water facility (water purifier installed) and also corporation drinking water for the students and as well as for the staff members.
